In this sense, Spanish riders will receive the corresponding invoice prepared by the OC (including the Spanish rider as the issuer of the invoice) indicating the amount of prize money (taxable base) plus VAT quota. THE FEI CODE OF CONDUCT

FOR THE WELFARE OF THE HORSE

The Fédération Equestre Internationale (FEI) expects all those involved in international equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

1. At all stages during the preparation and training of competition horses, welfare must take precedence over all other demands. This includes good horse management, training methods, farriery and tack, and transportation.
2. Horses and competitors must be fit, competent and in good health before they are allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of aids.
3. Events must not prejudice horse welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the horse for onward travel after the event.
4. Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper veterinary care, competition injuries, euthanasia and retirement.
5. **The FEI urges all involved with the sport to attain the highest levels of education in their areas of expertise.**

A full copy of this Code can be obtained from the Fédération Equestre Internationale, H.M. King Husein I Building, Chemin des Délices 9, 1006 Lausanne, Switzerland. Telephone: +41 21 310 47 47. The Code is available in English & French. The Code is also available on the FEI's website: www.fei.org.

Championship Penalties:

The scores obtained by each competitor will be converted into points by multiplying the time of each competitor by the coefficient 0,50; the score must be rounded up or down to the second decimal place. The second decimal place will be rounded up from 0,005 and rounded down from 0,004. The competitor with the lowest number of points after this conversion will be given zero penalties, the other competitors being credited with the number of penalties representing the difference in points between each of them and the leading competitor. If a competitor is eliminated or does not complete his round for any reason, he will be awarded the same number of penalties as that incurred by the competitor who has been the most severely penalised, plus 20 penalties. If the competitor concerned has himself received the highest number of penalties before being eliminated or retiring, 20 penalties will be added to his score.

Adding the 20 penalties is done after the time difference has been converted into penalties.

In case of competitors with equality of penalties, the score of the first competition will decide their starting order.

Teams - The starting order of the teams qualified to compete is set according to the reverse order of total penalties of the best three competitors per team incurred in the first individual competition and the best three competitors per team in the Round 1 of the team competition. The ten teams and those with equality of penalties for tenth place receive their placing by adding the penalties incurred by the best three competitors in each team in the first competition and the penalties incurred by the three best competitors in each of the two rounds of the second competition. The team, which has obtained the least number of penalties will be placed first and declared FEI European Team Champion.

In the event of equality of penalties between teams for first, second and/or third place, there will be a jump-off against the clock in which all team competitors may take part, over six obstacles, which may be increased in height and/or spread at a speed of 400 m/m. The score in this jump-off is obtained by adding the penalties incurred by the three best competitors in the jump-off added together will decide the winning team as well as those placed second or third. The score of this jump-off is only to determine the placing of the teams and will not count towards the final scores of the individual competitors.

If two jump-offs are required, the jump-off for the third place shall precede the jump-off for the first and the second place. If after the jump-off there is equality of penalties and time for one of the first three places, the teams concerned will be placed equal. Teams not qualified for the second round of the team competition receive their placing by adding the penalties incurred by the three best competitors in each team in the first competition and the penalties incurred by the three competitors in the first round of the team competition.

For those individuals and members of teams not qualified for the second round of the team competitions the starting order will follow the reverse order of penalties incurred in the first competition and the first round of the second competition as well as the round replacing the second round of the team competition. For those individuals and members of teams not qualified for the second round of the team competition their score in the second round qualifier counts instead of the second round of the team competition.

The competitor with the least penalties will be placed first and declared the FEI European Champion.

In the event of equality for one of the first three placed after Round B of the third competition, there will be a jump-off against the clock at a speed of 400 m. per minute over 8 obstacles from the courses of Rounds A and B. The competitors will be invited to inspect the jump-off course.

If two jump-offs are required, the jump-off for the third place shall precede the jump-off for the first place and the second place.
